Qwalena was the single most powerful assembly that I have experienced in my ten year teaching career. This is a must see production for every school, student, and teacher in our province. The topic of residential schools and the Indian act is incredibly important in education today. Dallas does a fantastic job of weaving traditional teachings of indigenous values and the contemporary hidden history associated with Canada's dark past in a delicate, yet emotionally impactful way. Students and teachers alike walk away from this presentation moved, informed, empathic, and appreciative. You will not be disappointed or disengaged in the least. Thank you to 3Crows Productions for bringing such an amazing presentation to our school.
