

How Raven Stole the Sun by 3 Crows Productions was by far Oppenheimer's favourite performance during our 2018-19 school year. It is very difficult to keep an audience of 5 year olds and 12 year olds completely engaged for over an hour, however, 3 Crows Productions easily kept the whole school completely engaged for the entire time. It is not very often that groups of grade 7 students, on their own will, come tell me how much they liked the performance. Story telling is such an integral part of our learning and for them to be able to keep 400 children's attention and entice laughter the entire time is amazing.

Thank you to 3 Crows Productions! An outstanding performance! Highly recommended!!
